Erasmus+ project "CYBPHYS"

Monitoring Visit to the Project

Denis Marmysh

Belarusian State University

December 10, 2020

Development of practically-oriented student-centred education in the field of modelling of Cyber-Physical Systems (CybPhys)

67827-EPP-1-2014-1-LV-EPPKA3-ECHE

Partner organisations

Belarusian State University

Francisk Skorina Gomel State University

Mozyr State Pedagogical University named after I.P.Shamyakin

4 Institute for Nuclear Problems of Belarusian State University

Affiliated entities

Belarusian Physical Society Voluntary Association

Republican Nanoindustry Association

3 JSC "INTEGRAL" - Holding Managing Company

7 Work Packages

- WP1. Preparation
- WP2. Development and modernizing of curricula
- WP3. Development of innovative ICT based teaching and learning environment
- WP4. Developing the Sharing Modelling and Simulation Environment platform (SMSE)
- WP5. Quality Assurance
- WP6. Dissemination, exploitation and sustainability
- WP7. Management

BSU is a leader of WP2 and WP4, coordinates the activity of Belarusian consortium in these directions.

Project information page

WP1. Preparation

Kick-off Meeting, Minsk, BSU; December 5, 2019

WP1. Preparation

Project platform on Moodle

Training programs

- Mathematics and Computer Science (masters level)
- Applied Physics (master level)
- Computer Physics (bachelor level)
- Physics (research activity) (bachelor level)
- Computer Mathematics and System Analysis (bachelor level)
- Physics (master level)

New courses

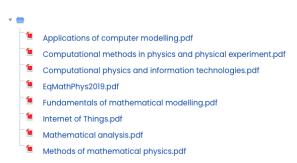

| (| | | |
|--|---|--|--|
| New courses | | | |
| Internet of Things | 2.5 | Mathematics and Computer Science (master) | Andrei Deryushev |
| Equation of mathematical physics | 6 | Computer Physics (bachelor, 4 years) | Igor Timoshchenko |
| Fundamentals of mathematical modelling | 3 | Computer Physics (bachelor, 4 years) | Igor Timoshchenko |
| Mathematical physics | 6 | Physics (research activity) (bachelor, 5 years) | Igor Timoshchenko |
| Mathematical modelling of physical processes | 9 | Applied Physics (master) | Alexander S. Fedotov |
| High-Performance computing for numerical simulations and data analysis | 3 | Computer Physics (bachelor, 4 years) | Oleg Romanov |
| Mathematical modelling for fluid- and gas dynamics | 6 | Computer Physics (bachelor, 5years / master) | Oleg Romanov |
| Data mining and acquisition | 3 | Computer Physics (Bachelor, 4 years) | Anatolii Zherelo |
| Development of applications for high-performance computing (laboratory practicum) | 9 | | Oleg Romanov / Sergey Bachanovich |
| Simulations of physical processes using high-performance computing systems (laboratory practicum) | 6 | | Oleg Romanov |
| Modern approaches to Big Data analysis (laboratory practicum) | 3 | Computer Physics (bachelor, 4 years) | Anatolii Zherelo |
| Applications of computer modelling | 0 | Mathematics and Computer Sciences (Master) | Vasily Volkov |
| | Internet of Things Equation of mathematical physics Fundamentals of mathematical modelling Mathematical physics Mathematical modelling of physical processes High-Performance computing for numerical simulations and data analysis Mathematical modelling for fluid- and gas dynamics Data mining and acquisition Development of applications for high-performance computing (aboratory practicum) Simulations of physical processes using high-performance computing systems (laboratory practicum) Modern approaches to Big Data analysis (laboratory practicum) | Internet of Things 2.5 Equation of mathematical physics 6 Fundamentals of mathematical modelling 3 Mathematical physics 6 Mathematical modelling of physical processes 9 High-Performance computing for numerical simulations and data analysis 3 Mathematical modelling for fluid- and gas dynamics 6 Data mining and acquisition 3 Development of applications for high-performance computing (laboratory practicum) 9 Simulations of physical processes using high-performance computing systems (laboratory practicum) 6 Modern approaches to Big Data analysis (laboratory practicum) 3 | Internet of Things Equation of mathematical physics Equation of mathematical physics Equation of mathematical physics 6 Computer Physics (bachelor, 4 years) Mathematical modelling 3 Computer Physics (bachelor, 4 years) Mathematical modelling of physical processes High-Performance computing for numerical simulations and data analysis Mathematical modelling for fluid- and gas dynamics 6 Computer Physics (bachelor, 4 years) Mathematical modelling for fluid- and gas dynamics 6 Computer Physics (bachelor, 4 years) Data mining and acquisition Development of applications for high-performance computing (laboratory practicum) 9 Computer Physics (bachelor, 5 years / master) Simulations of physical processes using high-performance computing systems (laboratory practicum) 6 Computer Physics (bachelor, 4 years) Computer Physics (bachelor, 4 years) Computer Physics (bachelor, 4 years) |

Modernised courses

| | Modernised courses | Credits | | Person |
|----|--|---------|--|--------------------|
| 13 | Information Technology | 6 | Mathematics and Computer Sciences (Master) | Andrei Deryushev |
| 14 | Programming for supercomputers | | Computer Physics (bachelor, 4 years) | Sergey Bachanovich |
| 15 | Mathematical analysis | 0 | Computer Matnematics and System Analysis | Natalia Brovka |
| 16 | Computational physics and information technologies | 0 | Physics (master level) | Oleg Romanov |
| 17 | Computational methods in physics and physical experiment | 0 | Applied Physics (master level) | Oleg Romanov |

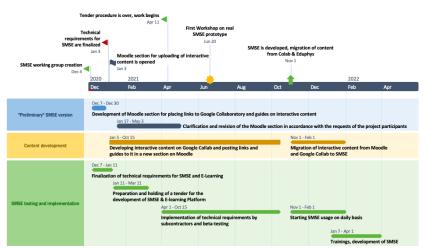

BSU: Accreditation documents of education programs and courses

WP4. Developing the Sharing Modelling and Simulation Environment

WP4. Developing the Sharing Modelling and Simulation Environment platform (SMSE)

- 1. Workshop on Google Collab before content creation starts
- Finalization of technical requirements for SMSE is upcoming till the first week of January – <u>letter is upcoming</u>;
- **3. Placement of content on Moodle:** a) in books' sections; b) in separate sections.

Specificity of the project realization

Since July, 2020 all meetings in on-line form July 27; August 3; September 7; October 5; November 2; December 7

Project is still not registered by the Belarusian government
