LEARNING PROCESS

GENERAL COOPERATION OF KHARKIV STATE POLYTECHNIC COLLEGE (KHDPK) - KHARKIV NATIONAL AUTOMOBILE AND ROAD UNIVERSITY (KHNAD)

Having an agreement on cooperation between the Khnadu and the KhDPC, the parties agreed to cooperate to meet the needs of the development of science, education and production. They also started working in the field of monitoring the labor market, reviewing and developing recommendations for improving educational programs, conducting practice and internships on the basis of the KhDPK for the training of specialists in this field. Work on the organization of scientific research and international projects is also carried out. Develop and maintain direct contacts with each other. Apprenticeships are conducted. They also hold a mutual discussion on filling educational programs with components that correspond to modern trends and problems.

On the basis of the KhDPK, practice and training of applicants is conducted with free use of the material and technical base of the college. Joint scientific, methodical, practical conferences, seminars with the involvement of specialists from other organizations are held jointly. The exchange of scientific and technical information is carried out. They also cooperate in solving issues related to the development and updating of the material, technical and educational base of the KhDPK. Well, they also cooperate in the field of popularization of education in specialties, taking into account the needs of training specialists in areas of economic activity.

Conclusions. General cooperation between educational institutions gives a positive result for each institution. We are very interested in graduates of Kharkiv National Automobile and Road University, KhNADU. Since after graduating from the university, graduates can come to us and hold various positions.
